

TRANSFORMING MENTAL HEALTH: MANAGING TRANSITIONS

18TH MALAYSIAN CONFERENCE ON PSYCHOLOGICAL MEDICINE

1ST ASIAN FEDERATION OF PSYCHIATRIC ASSOCIATIONS REGIONAL MEETING

22-24 MAY 2014 | KUALA LUMPUR, MALAYSIA

ORGANISED BY

SECRETARIAT

WELCOME ADDRESS

Dear Friends and Colleagues,

The Malaysian Psychiatric Association has been organising its annual conference for the past 18 years. We have seen various collaboration, with the ASEAN Federation of Mental Health, CINP and now we are working together with the 1ST Asian Federation of Psychiatric Associations (AFPA) Regional Meeting which will be held at the Sheraton Imperial Hotel, Kuala Lumpur from 22nd-24th May 2014. We hope this congress will provide more opportunities to strive towards greater local, regional and international collaborations for enhancing mental health services, education and research.

The theme of the congress “Transforming Mental Health: Managing Transition” was chosen to emphasize the future direction of mental health services. Over recent years, there has been tremendous therapeutic advancement and service transformation in the mental health care. This transformation will demand shared learning among countries, and the deployment of innovations suitably adapted for local needs. Thus, moving forward we must devote all resources to bring about awareness and detailed attention in order to create a harmonious transition at the level of the individual, community and nation for a more effective and comprehensive mental health care.

I have great pleasure to welcome you all to the vibrant and exciting city of Kuala Lumpur. The organising committee have been working hard to come up with an exciting scientific programme with the help of our Asian colleagues. Furthermore, the excitement of Visit Malaysia Year 2014 is a great opportunity for all of you to explore some of the sights and sounds of Kuala Lumpur, which has a mixture of various cultures and showcases the diversity of Malaysia. Do come and join us for an enriching learning experience and please enjoy your stay.

SELAMAT DATANG & A Warm WELCOME to Kuala Lumpur!

Thanking you...

Yours sincerely,

Dr. Abdul Kadir bin Abu Bakar

President, Malaysian Psychiatric Association & Organising Chairman

Dear Asian colleagues,

Asia comprises 60% of the world’s population. Many people are suffering from mental disorders. Forming a unified platform to promote scientific communication among all concerned in the Asian region is necessary. The Asian Federation of Psychiatric Associations (AFPA) was thus established for this network.

Previously, AFPA held its biennial congress called the World Congress of Asian Psychiatry (WCAP). At the WCAP 2013 in Bangkok, the AFPA decided to hold its regional meeting (RM) in the years between the WCAP. So, the 2014 Regional Meeting of AFPA will be the first RM and will be held in Kuala Lumpur (KL) which is one of the major cross roads of Asia.

Many prominent speakers from the Asia Pacific region have been invited to contribute at this particular regional meeting. The theme of the meeting is “Transforming Mental Health: Managing Transition” and will be very up-to-date on the current situation. The first AFPA-RM will be an excellent opportunity for Asian psychiatrists and mental health workers to share their experiences on managing mental health in this transition period.

Lastly, I would like to express my sincere thanks to our local host, the Malaysian Psychiatric Association (MPA), especially to Dr. Abdul Kadir bin Abu Bakar who is the current MPA President and also the Secretary General of AFPA. With his past experiences in the MPA in organizing many international congresses and regional meetings, I am sure that the first AFPA-RM in conjunction with the 18th Malaysian Conference on Psychological Medicine (MCPM) will be a big event and a fruitful meeting.

The year 2014 is also the Visit Malaysia Year which is the nation’s biggest and grandest tourism celebration. The co-occurring event will be a memorable experience for the participants of AFPA-RM. I look forward to meeting you at this regional meeting in KL on 22-24 May 2014.

Yours sincerely,

Prof. Pichet Udomratn, M.D

President, AFPA (2013-2015)
